CARRER OBJECTIVE

A highly motivated and detail-oriented IT Support professional with a strong foundation in troubleshooting, system administration, and customer support. Passionate about resolving technical issues, enhancing IT processes, and delivering exceptional end-user support. Seeking an entry-level IT support/helpdesk role where I can leverage my analytical thinking, technical expertise, and problem-solving skills in a dynamic work environment.

PROFESSIONAL SKILLS

IT Support & Troubleshooting – Diagnosing and resolving hardware, software, and network-related issues efficiently.

✔ Helpdesk & End-User Support – Providing remote and on-site technical assistance to users.

✔ Ticketing Systems: Jira, ServiceNow – Tracking and managing IT service requests efficiently.

✔ Operating Systems: Windows, Linux (Ubuntu, CentOS) – Installation, maintenance, and troubleshooting.

✔ Hardware & Software Management – Installing, configuring, and troubleshooting desktops, laptops, and peripherals.

✔ Remote Support & System Administration – Assisting users via tools like TeamViewer, Any Desk, and Microsoft Remote Desktop.

✔ Cloud Technologies – Experience with Microsoft 365, Google Workspace, and cloud storage solutions.

✔ Basic Scripting & Automation – Writing simple scripts in Python and Bash to automate repetitive tasks.

✔ Cybersecurity Awareness – Implementing security best practices, managing antivirus solutions, and ensuring data protection.

✔ Technical Documentation – Creating IT knowledge base articles, troubleshooting guides, and reports.
